

Article Preparation Guide: Environment, Development and Sustainability Journal

Step 1

Read aims and scope of the journal very well. Below description is explaining aims and scope of the journal which is also available at <https://www.springer.com/journal/10668/aims-and-scope>

Aims and scope

Environment, Development and Sustainability is an international and multidisciplinary journal covering all aspects of the environmental impacts of socio-economic development. It is also concerned with the complex interactions which occur between development and environment, and its purpose is to seek ways and means for achieving sustainability in all human activities aimed at such development. The subject matter of the journal includes the following and related issues:

- Mutual interactions among society, development and environment, and their implications for sustainable development
- Technical, economic, ethical and philosophical aspects of sustainable development
- Global sustainability - the obstacles and ways in which they could be overcome
- Local and regional sustainability initiatives, their practical implementation, and relevance for use in a wider context
- Development and application of indicators of sustainability
- Development, verification, implementation and monitoring of policies for sustainable development
- Sustainable use of land, water, energy and biological resources in development
- Impacts of agriculture and forestry activities on soil and aquatic ecosystems and biodiversity
- Effects of energy use and global climate change on development and sustainability
- Impacts of population growth and human activities on food and other essential resources for development
- Role of national and international agencies, and of international aid and trade arrangements in sustainable development
- Social and cultural contexts of sustainable development
- Role of education and public awareness in sustainable development
- Role of political and economic instruments in sustainable development
- Shortcomings of sustainable development and its alternatives.

5th International Conference of Geological Engineering Faculty Article Preparation Guidelines

The journal welcomes scientific research papers, review papers and discussion papers dealing with environmental sustainability issues from such fields as the biological sciences, agriculture, geology, meteorology, energy, food sciences, soil and water sciences, geography, nutrition, physical sciences, politics, economics, law, etc. The journal particularly welcomes papers that highlight more than one dimension of sustainable development.

Step 2

If your paper is matching with these guidelines, go on to check the Instruction for Authors available at;

<https://www.springer.com/journal/10668/submission-guidelines#Instructions%20for%20Authors>

This section contains how you should format the paper according to the journal's requirements. It contains guidelines for preparing title page, formatting text, Formatting headings, including citations, preparation of list of references, table formats etc.

To avoid desk rejection, it is important to comply with each and every formatting guideline stated herewith.

The steps required for submission will be provided to you once the scientific committee decides on the suitability of your paper to the journal.
