

**Article Preparation Guide: Nature Geoscience**

**Step 1**

Read aims and scope of the journal very well. Below description is explaining aims and scope of the journal which is also available at <https://www.nature.com/ngeo/about/aims>

**Aims and Scope**

Nature Geoscience is a monthly multi-disciplinary journal aimed at bringing together top-quality research across the entire spectrum of the Earth Sciences along with relevant work in related areas.

The journal's content reflects all the disciplines within the geosciences, encompassing field work, modelling and theoretical studies.

- Topics covered in the journal
- Atmospheric science
- Biogeochemistry
- Climate science
- Geobiology
- Geochemistry
- Geoinformatics and remote sensing
- Geology
- Geomagnetism and palaeomagnetism
- Geomorphology
- Geophysics
- Glaciology
- Hydrology and limnology
- Mineralogy and mineral physics
- Oceanography
- Palaeontology
- Palaeoclimatology and palaeoceanography
- Petrology
- Planetary science
- Seismology
- Space physics
- Tectonics
- Volcanology

Nature Geoscience is committed to publishing significant, high-quality research in the Earth Sciences through a fair, rapid and rigorous peer review process that is overseen by a team of full-time professional editors.

## **5th International Conference of Geological Engineering Faculty Article Preparation Guidelines**

In addition to publishing primary research, Nature Geoscience provides an overview of the most important developments in the Earth Sciences through the publication of Review Articles, News and Views, Research Highlights, Commentaries and reviews of relevant books and arts events.

### **Step 2**

If your paper is matching with these guidelines, go on to check the **Preparing for Submission** available at; <https://www.nature.com/ngo/for-authors/preparing-your-submission>

This section contains how you should format the paper according to the journal's requirements. It contains guidelines for preparing title page, formatting text, Formatting headings, including citations, preparation of list of references, table formats etc.

To avoid desk rejection, it is important to comply with each and every formatting guideline stated herewith.

The steps required for submission will be provided to you once the scientific committee decides on the suitability of your paper to the journal.
